## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 5, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by UK Patent Application 2,203,483A ('483). A dual pivot concealed hinge mechanism comprising a body side hinge support 20 with a pivot stop (inherently being at the extent of motion); a door side hinge support 18 having a cam surface 40, the cam surface terminating in a detent 48, and a U-shaped hinge arm 22 pivotally connected to the body side hinge support and the door side hinge support, and comprising a rocker arm 50 pivotally mounted to the hinge arm about 52 and having a cam follower 38 biased against the cam surface; and a stop linkage (42, 46) pivotally connected between the hinge arm and the body side hinge support, whereby the hinge mechanism is adapted to operate through a substantially semi-circular range of motion, a first portion of the range of motion pivoting the door side hinge support relative to the hinge arm as the cam follower traverses the cam

surface, until the cam follower engages the detent, and a second portion of the range of motion pivoting the hinge arm relative to the body side hinge support until the stop linkage engages the pivot stop.

***Allowable Subject Matter***

3. Claims 2-4 and 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
